

A Comfortable Operator, is a Productive Operator

ANTI-IDLE solution for the Mining and Heavy Construction Industries!

The **Rencool BCA-6** series utilises the factory cabin evaporator on 24 V electric or from the factory engine drive compressor. With the engine shut down the **BCA-6** takes over the cooling duty powered from AUX or upgraded factory batteries depending on runtime needed.

- Anti-Idle application
- 22 000 BTU = 6 kW
- 24 V supply for instant cooling
- Pre-gassed system
- Ready to run
- No servicing
- BLDC patented compressor drive
- 200 000 hrs MTBF

Rencool™
Manufacturers of 500+ Voltage Air Conditioners

Fuel Saving • Reduce Carbon Emissions • Improve Service Intervals
