

Our Instrument Panels are Custom-designed to meet the Specific Needs of our Customers.

Trysome identified a market need for high-quality replacement Instrument Panels. Through intensive research and a highly skilled workforce, Trysome's Manufacturing Division are now building instrument panels to meet high-performance requirements. Each instrument panel can be customised and modified to satisfy the specific needs of each customer and their particular working environment and industry sector.

Each product development or customisation adheres to proven working practices and strict ISO quality controls.

Our objective is to improve quality while minimising cost and downtime!

Instrument Panel for a EJC 777

Instrument Panel for a DD320

Instrument Panel for a Toro D400

Instrument Panel for a EJC 416

Instrument Panel for a Dozer
